Motivated front-end developer with a design/artistic background and technical experience from self-study and hands-on project work focused on React, JavaScript, Node.js, and CSS. Effective communicator with native Spanish and advanced English (CAE/C1) skills. Seeking opportunities to contribute to impactful web development projects and continue learning and growing.

PROJECTS

- **Mago del Regalo** - Currently building front-end for Mago del Regalo ("the gift wizard"), an AI-powered app that eliminates the challenge of finding gift ideas. Developed utilizing Next.js, TypeScript, MaterialUI, React Query, and Styled Components.
- **Guess The BPM** (GitHub repo) - Independently built a web-based game using React and Styled Components that enables users to try to guess the beats per minute of a song by tapping their mouse to the beat in rhythm. The page features an integration with the YouTube API to serve videos and has i18n internationalization for both Spanish and English language.
- **Portfolio** - Independently built a responsive portfolio page from scratch using JavaScript, Next.js, SSR, and Styled Components.
- **Homely** (GitHub repo) - Created proof of concept for a minimal real estate platform integrated with a CRUD API, built using React, React Hook Forms, React Query, Axios, MaterialUI, and Styled Components.
